

PUSHPENDRA SINGH

AI/ML ENGINEER | AI AGENT & APP DEVELOPER | AWARD-WINNING EDTECH FOUNDER

pushpendra@edgoldenbird.com || +91-8446025920 || [LinkedIn](#) || Pune, MH

SUMMARY

AI/ML Engineer and Product Builder with 5+ years of experience developing real-world solutions using Python, ML, and GPT-powered systems. Scaled my EdTech company, GoldenBird Education, to 4 countries and 200+ colleges using internal AI-driven automation. Recognized by Times of India as an award-winning founder. Expert in B2B sales, AI product strategy, and building scalable systems with zero marketing spend.

EDUCATION

BTech. in Electronics and Communications
Manipal Academy Of Higher Education , Manipal

Aug 2018 - Sept 2022

WORK EXPERIENCE

Lead AI Engineer & Product Architect

Dubai, UAE & Pune, India

Jan 2021 - Present | Remote

- Built and scaled GoldenBird into an AI-powered EdTech platform used by 22,000+ students across 4 countries.
- Launched India's first AI Agent course (Dec 2024); designed using GPT workflows and automation systems.
- Developed AI/ML pipelines for NLP, recommender systems, and learning analytics.
- Integrated AI agents for onboarding, feedback, and support — reducing manual load significantly.
- Closed B2B deals with GEMS Dubai, DPS, VTU, and VIBGYOR; scaled profitably with zero marketing spend.
- Recognized by Times of India as Emerging Founder for product-led AI innovation.

AI/ML Engineer & Technical Consultant

Self-Driven | Freelance & Startup Projects

Jan 2019 - Present | Remote

- Built and deployed 100+ real-world projects across mobile apps, AI/ML models, and automation tools.
 - Developed NLP models (spaCy, NLTK) for sentiment analysis, feedback classification, and chatbot flows.
 - Used scikit-learn, TensorFlow, and Python to build clustering models, recommenders, and internal data tools.
 - Designed and deployed AI agents using GPT and prompt-based workflows for onboarding, support, and internal tasks.
 - Worked as a consultant and lead developer for startups like AlarInnovations, RideBuddy, and Instrumus — delivered ML/AI modules, dashboards, and product automation flows.
-

MAJOR TECHNICAL PROJECTS

- AI Student Learning Assistant – GoldenBird Education**

Role: Team Lead | **Tech:** Python, scikit-learn, GPT-4, Firebase

Led a team to develop and deploy an AI learning assistant that personalized the educational journey for over 23,000 students. The system automated onboarding processes and improved resource discovery by leveraging scikit-learn clustering models and GPT-4 workflows.

- AI-Powered Patient Data System – Alar Innovations**

Role: Team Lead | **Tech:** Python, scikit-learn, ML pipelines, REST APIs

Led a team to deliver an ML-powered system that reduced manual patient data entry by 40% and enabled real-time anomaly alerts for clinical staff. The system automates the ingestion and analysis of critical vitals (BP, ECG, O2) using robust scikit-learn pipelines deployed via REST APIs.

- **AI Security Monitoring System – Access Control Automation**

Role: Team Lead | **Tech:** Python, OpenCV, TensorFlow, anomaly detection

Delivered an AI-powered access control system that improved anomaly detection accuracy to 98% and reduced false security alerts by 75%. Led the end-to-end development, using TensorFlow and OpenCV to analyze behavioral patterns from real-time data logs and flag potential threats automatically.

KEY SKILLS

- **AI & Machine Learning:**

Python, scikit-learn, TensorFlow, GPT-4, Prompt Engineering, LLM Integration, NLP (spaCy, NLTK), Recommendation Systems, Clustering, Sentiment Analysis, Anomaly Detection, Pandas, NumPy

- **App & Platform Development:**

Firebase Realtime DB, REST APIs, Git, Jupyter Notebook, Google Colab, API Integration, Model Integration (FastAPI-ready logic)

- **Data & Deployment:**

Android Studio, Swift (iOS), Unity 3D, Firebase Auth, Mobile App Architecture, UI/UX Design (Figma), Cross-platform Workflow

- **Business & Communication:**

B2B Sales, Product Strategy, EdTech Innovation, Team Management, Startup Consulting, Public Speaking (300+ sessions), Client Training

AWARDS & RECOGNITION

- **Emerging Founder Award – Times of India (2021)**

Honored for building GoldenBird Education into a profitable, scalable EdTech company using AI-first systems.

- **Top Finalist – Abhyuday Social Innovation Challenge, IIT Bombay**

Recognized for tech-based solution in the education/social impact space.

- **Winner – IDEAS Program, IIT Bombay**

Selected for a high-impact project focused on innovation in student learning models.

STARTUP CONSULTING & EXTERNAL PROJECTS

- **RideBuddy (Mobility Startup):** Advised on user acquisition strategy and internal AI-driven referral logic.
- **Alar Innovations (HealthTech):** Led ML model design for patient monitoring and automation (see Projects).
- **Instrumus (IoT Platform):** Supported technical scoping and integration strategy for AI modules.
